

## ACVS Package Noise Enclosures

ACVS equipments such Chillers, Boilers, Air Handling Units, Compressors etc. are some of the major outdoor noise source of an Air conditioning and Ventilation System. Acoustic India offers Noise Control Packages such as Acoustic Enclosures and Acoustic Barriers to effectively reduce the noise to the required / permitted level.

### Technical Details:

- ▲ The Acoustic Enclosures and Acoustic Barriers comprises of modular structure frames made out of MS Channels, angles and pre-fabricated high performance acoustic panels.
- ▲ The Acoustic panels are of multi-layer construction having:
  - ▲ Inner GI perforated sheet
  - ▲ Packed with infilled material and Scrim Cloth
  - ▲ Outer GI cover sheet.
- ▲ The Acoustic Enclosure will be provided with suitable ventilation system consisting of Ventilation Blower, Ventilation Intake and Exhaust Silencers.

### Acoustical Performance:

Our Products are tailor-made and are designed to meet the required noise performance.

### Salient Features:

- ▲ Easy to assemble and disassemble
- ▲ Modular Design
- ▲ Fully Absorptive
- ▲ Water / Moisture resistant
- ▲ Non-corrosive

## ACVS Package Noise Enclosures

▲ Strong and durable

▲ Impervious to rain

### Applications:

▲ Chillers

▲ Roof top AC Units

▲ Cooling Towers

▲ Evaporators

▲ Condensers

▲ Air Handling Units

▲ Compressors
